

NEW TO 2022

New Registry Platform

The new PCOR-ANZ technology solution platform is now live in two jurisdictions (TAS and NZ) with other jurisdictions to follow shortly in 2023.

Improved Governance

New committees with specialist roles have been implemented in 2022 along with updates to governance documents. These changes better support the primary registry aim of improving the care and outcomes for men living with prostate cancer.

New reports for contributing clinicians

Radiation Therapy Quality Indicator Reports were released for the first time in addition to the existing surgical reports.

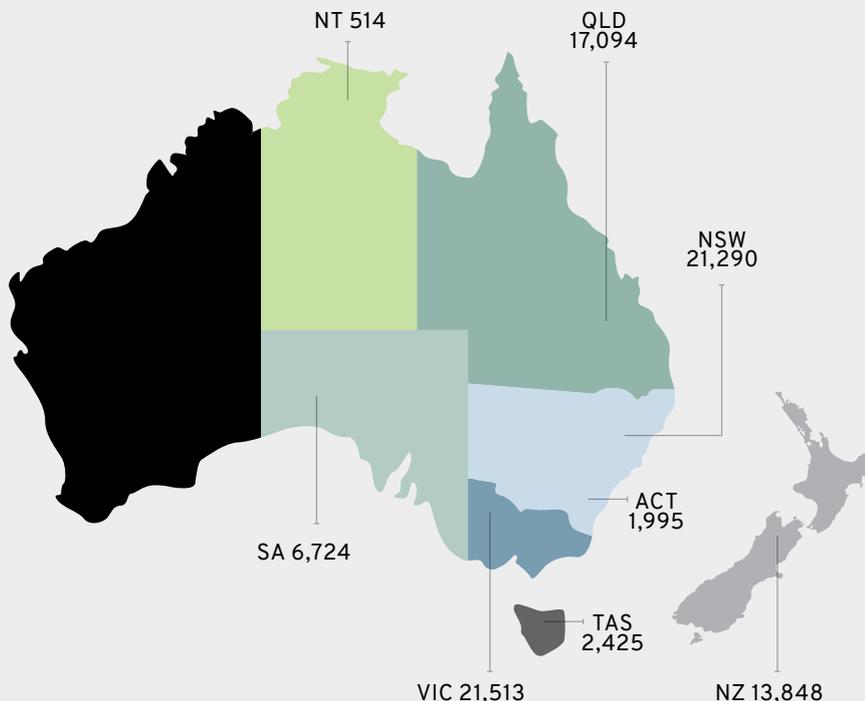

Published research

73 papers have been published in medical journals to quantify changes in the care and outcomes for people with prostate cancer, and to identify areas of inequity.

HOW MANY PEOPLE ARE INVOLVED IN PCOR-ANZ?

People enrolled by jurisdiction in 2022

1,490 QUALITY OF CARE REPORTS GENERATED IN 2022

824 reports for clinicians
667 reports for hospitals

382 CLINICIANS CURRENTLY ENROLLED (2022)
